

# Input system

Forces - force diagram:  
Resultant location - x: 0.0 y: 0.0  
and components - u: 0.0 v: -400.0

Forces - space diagram,  
with resultant along line (a,b,c): [-400.0, 0.0, 0.0]

Force - decomposed

# Resultant and reaction(s)

Forces - force diagram:  
Resultant has zero magnitude (equilibrium)

# Computational model

# Results: normal force distribution in system
